I can't remember the map but it's the one where you can drive the harvesters, you know where everyone turns into a noob and half your team is in one. lol Same map also has meteor showers. New one, think I played I back when Renwarz had their server up.

Anyway I was on nod, we only had the ref and pp still standing and GDI only had the power plant left. We had tried several rushes but was heavily defended. There was a noob just driving around in a harvester. I said I have an idea but I need your Harvey. I drove the Harvey to GDI's power plant. Behind me was our entire team hiding behind it. Got to the power plant, AngryC4Killer lays a nuke and I sit on it with the Harvey lol. Rest of the team defends the Harvey. Nuke goes off. We win.
