I think that's deism. I think agnosticism is not denying the existence of a god, but you're not sure if there is one.

Well if that ain't the pot calling the kettle black, I don't know what is. I have asked repeatedly for proof of God's existence and yet my "God detector" remains at "No".

You obviously don't know what is, then. Me correcting someone on the definition of a belief system is hardly being hypocritical.

Believers can't handle someone trying to prove there is no god and will make every effort to interfere with it. Yes, it's called a belief system. If someone insults your beliefs, it makes complete sense to try and defend your beliefs. You know, the same way Republicans try and defend the Iraq War.

^ This is the post I meant to quote. I scrolled back up and picked the wrong one of your two one-line replies.
