I know about the green black thing, but isn't there anyway to defend against it? Maybe Dante or someone could code something for us to defend against it.

By the way- WSE coming back isn't going to be good for us, there are quite a few newbs out there that would want to catch up with the better players. Sure Blazer is right it's only a kill/death count, but Hell, it's not fair, and I'll do everything I can to stop it. And I think I speak for everyone on that.
