- there's even a show called britain's worst teeth
http://www.bbc.co.uk/bbcthree/programmes/body_image/worst_teeth.shtml
- they expose their sunburnt beer bellies whenever possible showing off their genetic defect
- tourists are even worse than the germans and dutch
- ruled by a german royal family
- drive on the wrong side of the road
- all their luxury cars are in german hands because they were too retarded to build them
- like the measure in stones like cavemen
- get beaten by 3rd class german soccer team in wembley
- home to some of the most annoying accents in the world

add your own, im sure theres plenty of other valid reasons

I'll don't see how whatever you just said has anything to do with this topic.
