I got the game today, and I beat it on Heroic just a few min ago. The game went above and beyond my expectations.

So, I say BAH! to everyone who thinks it was overrated. I used to think that the game itself was a close bar between overrated and underrated, but now after I played it, all that overrated crap just got thrown out the window, onto a truck, loaded onto an air plain, flown over the Atlantic, and disintegrated with a particle beam.
