I might actually attempt to make the suit as nice as possible from paper to plastic using bondo, fiberglass and all that hard stuff....

I saw a guy who in 3 days working nonstop, he made a fully accurate suit from cardboard, bondo, and fiberglass and it looks nice, nothing of course beats the plastic formed suits because of their superior quality, but these are almost as good. I'd say their 80-90% as good as the real deal.
