I dont remember the German war machine ever stepping foot in the UK.....so huh, just coz the French rolled over and said woof doesn't mean Europe was owned as I believe the UK was then and is still part of Europe so

Anyway you're partly right Goztow Hilter fought a war on two/three/four fronts toward the end and that is never smart! Whether Germany would have ever got to the UK or not remains to be seen because they would have had to fight for every square inch of the country, simply because we used to be an empire, no way we'd keel over and be ruled by another....It's just British Stubborn nature.

Edit oh yeah sorry Spoonny back on topic
