Meh, Hourglass is well balanced on marathon servers, the guys who arty whore will get a mvp mostly, not that they will actually cause a boost to the winning, as GDI mostly just has some1 repping the ref. As mostly Nod will rush with stanks or a light tank mass (mostly fails) GDI tends to mass rush or mammy, but overall, on Marathon servers its balanced (7 hour games ftw, and then being in it from start)

Naders are also good though
