I think (always have done) 1v1 skill is far more important than any other skill in Renegade. When I played Ren to be better than the rest I was always willing to 1v1 people to test my skill.

The reason I think 1v1 skill is more important is because if you can't think for yourself and win the game using your tactics then what's the point trying to play online. Anyone, even a newbie can get a tank and join the battlefield to hit a building, that in my opinion doesn't really mean shit, yeah ok it's teamplay but said person is acting on what he sees everyone else doing. That in my book isn't skill.

At the end of the day, skill is skill and teamplay is teamplay. If you're in a large game, being skillful by yourself isn't going to win the game.
