Plenty of teamplay about in there.

Jelly Servers??

I was playing on it one day, and was on GDI. We had only the power plant left and i had the only med tank. Was defending all game they were repairing me. Wave after wave of attacks we fought off. Everyone was saying keep the med alive, keep the med alive and telling me i was doing a great job.

Then one of the server mods tells me to get out of the tank he wants it. Said if I do not get out and give him the tank, he will kick me out of the server. Everyone was like what are you doing he is doing a great job. Guy wanted my tank I refused. He kicks me out of the game.

I will never play there again.

You should've had a screen shot so you can get the fucktard off the mod list.

Give me the name of the moderator, and screenshots of the incident and it will be dealt with.

Nothing can be done if nothing gets said, just ignoring it and walking away is no good. If you posted and had proof, and nothing was done, then you would have genuine reason to put the community down.

However, a half baked accusation with no proof isn't worth the time it takes to read, unless you can back your claim up. If you can do, I would be more than happy to deal with it as that kind of abuse will not be tolerated, and if you really knew our setup you would know that.

its not half baked. i don't make story's up but this happened about awhile ago. Sorry didn't think to get a screen shot. I understand you trying to support your mods though.
