Havoc 89Majiin VegetaLaeubiWHY do you psot the whole Images as qutes?

whats the problem its not like you have to load each image for every time it is on a post..

anyway thats a nice HMRLS the GDI sybol at the from should be the other way around  
and the camoflauge needs to be darker

but it is VERY nice

umm i dont think its flipped. cause look at the TS GDI logo i added on the side of the MRLS so its  
fine.

thats what i mean..

dante the model looks great even more so he has made the adjustments on the scale and resizing  
of them bits

but skins are kewl
