No, I'm not a Bible Thumper because they wouldn't call you a fucking idiot like you are.

It doesn't matter if you believe in the Bible or not, you fucktard. It still has historical content in it. Even if it was a book made of 100% fiction, the ideology of slavery would still be there, which shows that there was slavery, to some extent, several thousand years ago.

I was going to add that, but I figured people would be smart enough to figure that out. I guess that's what I get for overestimating the intelligence on these forums.
