KIRBY-098 wrote on Thu, 04 October 2007 14:01 And remember:

Everything is perfectly aligned and provided and statistically improbable for life to exist to such a ridiculous degree to be an accident.

But you can't mention God doing it!

That would be impossible....

To adress your question: Hard to know. The bible doesn't talk about it other than a vage reference here:

John 10:16

16I have other sheep that are not of this sheep pen. I must bring them also. They too will listen to my voice, and there shall be one flock and one shepherd.

It has been hotly debated that this could refer to extraterrestrial life or just be a reference to the gentiles outside of isreal.

It seems unlikely the expanse is reserved solely for us

The possibility that god created the universe does not prove that the one you know from your magic book exists as you think he does.
