racism
–noun

1. a belief or doctrine that inherent differences among the various human races determine cultural or individual achievement, usually involving the idea that one's own race is superior and has the right to rule others.

You fail.

If that was directed towards me, then you sir, are the one who failed. All that does is restate what I said... without the example.

Saying that all races are allowed IS NOT a belief or doctrine that says a race determines one's cultural or individual achievement. It's saying that, "I DON'T GIVE A FUCK WHO YOU ARE, I WANT YOUR MONEY."
