Subject: New PC - Which OS?
Posted by CarrierII on Sun, 07 Oct 2007 20:01:12 GMT

Ok, I've got parts for a new PC lined up (birthday in november) and the only thing I keep being unsure over is the OS. Should I run Vista and "future proof"? Or should I get another copy of XP, hoping that SP3 will contain DirectX 10? All would be 64-bit. Opinions with sense to them only please.
