Darkeye 35go to <http://www.google.com> and search for XCC mixer, or sumit like that.

After downloading and installing, you can open your mix files, and extract information from them. I did this with carnage club extreme and have the song

It's ace

XCC mixer remember

Or instead of going thru all that trouble you can go over the net and download it. Stevie D put rgw mp3 file over the net to be downloaded.
