Duke of Nukes!m getting really sick of you anti-EA n00bs. WS wasn't making enough money...EA was completely justified in shutting down WS...any idiot with half a brain would try to have a profit

Uh huh....Who was it who controled WS and told them not to patch a game that had been ot for a while and just to move on (such as RA2), EA DID!

Who told them to release no further patches for Renegade because it ws pointless? EA DID, WS DEFIED THEM! Go WS!

WS would have done just fine if EA had left them alone but the money hungry comany doesn't give jack about gmae quality and keeping players.

peace out,
