Can you actually contribute something usefull to this Topic please, no 1 gives a shit how many posts iv'e made especially me!

So can you actually help with the FDS problem!

-----  
P.S: Can someone please tell me how to actually use the XCC Mixer? It seems simple but 4 the life of me i can't figure out how to change the C&C\_Walls\_FLying.lvl i've modded and saved to MIX(There is also the LSD and LDD file created after i saved it in leveledit, are they part of the MIXING process?)
