For someone who managed to create a file extractor for a game that at that point had only a demo/beta available, you're shockingly unintelligent.
What game?

Also, I recently didn't give any shit about Renegade, because I managed to get a Crysris MP beta key.

And to quote from the Crysris beta forums:

narbySir Kane is my favorite beta tester.

Lead Multiplayer Designer, Crytek

That's quite ironic, because no one gives a shit about you or your beta key.
