A quick tap of V,2,(1-6)

Theres no pelvic thrust in there(i didnt see one), I think he does a hoolahoop now instead (#2)

Did you get to use the translocator?

I really wouldnt bother binding a key for that, the sequence is easy enough. Maybe you could easily make a macro for it?

Wait....doesnt like j,k,l do the taunts, but they are only voice I thought. Am I missing something? Is there a way to go 3rd person? also, I hit q in a deathmatch server (pure) and that hoverboard thing didnt work
