Nooooooooooooooooooooo! You stay here!!!

Lol Thanks but I have no intention of leaving just yet but its a sinking ship! Forums dedicated to a game that is only available as a bundle in is a risky bet for someone looking for a life long community, I don't see any active forums for Red Alert 2 or those older games.

Now if Crimson made a new forum that was pulled away from Renegade and wasn't aimed at anything specific then I would be there forever. She has clearly been a greatly dedicated host and I would stick with her for as long as I can imagine.

I mainly just hang out in the General Discussion anyway and to me thats pretty much all this forum is now.

You guys are my family, I won't be walking away from this forum until the very last of its breath. I know n00bstories is a game-related forum, and I know the main game is still Renegade, but it's not nearly as bad as these forums, as far as I can remember.
