Well, it's not the Hind model. It's the Mil Mi-28 Havoc.

I found a free 3d Hind model if you want:

But to save time, you can simply rename it to Havoc instead of Hind. Havoc is still an awesome chopper but Hind is a true classic!

5 Stars for you, Urimas! Thank you for all your hard work!

P.S: Can't wait to fly the F-117!
