yes the y it was so fun saying it , jk, it was 1 am in morning, not my time of night to talk, i shouldnt have even been on net at that time sorry.

and i dont have 3ds max, its right hemisphere - deep exploration (free software) i found it on the computer one day, not sure where it came from. sadly gmax is the only 3d modeling program i have.

also i have the right to be and act like a child
