I know alot of people who have cheated in such a way it is sick!

Like one guy he kept going to a server and practically wiped out the whole enemy team using Wallhack, Bighead hack, noname hack and he kept doing so just by changing his I.P address.... Even my BRO now uses the Big Head hack now!

It is such a cheat, i have watched him run round on multiple servers shooting people in the GIANT comical heads that he has hacked.....i mean it is unbelievable how unaware people are, he had a STAT of 0 Death 34 Kills on 1 server, i mean it's unnatural for someone not even to suspect he's cheating!

He downloaded some sorta W3D Files and placed em in a Directory....and bingo that was it....

I mean hacking comes in so many different forms nowadays, i have seen almost all of the hacks in action!

It is sickening i am disgusted by how people resort to cheating in this way!!

Something has to be done to stop cheaters like my Brother!

It is wat 2 easy to cheat now and not get caught....please someone tell me there is a way we can Defend again cheats like Big Heads Hack!
