I have uploaded Dante's Text Cinamatic How-To to <http://www.renhelp.co.uk> in the tutorials section. It was originally on the ModX hidden away in the tutorials section so I have converted it to HTML format an uploaded it. Here is the original

<http://modx.the-pitts.net/showthread.php?s=&threadid=302> It is very useful to understand text cintmatics. If your wondering what commands you can use this tutorial will help you out. Hope it helps you.
