Havoc_eliteTalk about anything? Eh... thats already possible here you know... this is the GENERAL forum...

No sweat, we all make mistakes.

Hate to break it to you. This general forum you can't talk about anything you want. You can talk about anything in regards to C&C Renegade... It says it on the main page:

Quote: General Discussion

General discussion of Command & Conquer Renegade

What he means is a board where anything can be talked about, even what you ate for breakfast if need be.
