I understand where your coming from i really do i mean if i was in your position i would do near enough the same thing...

But come on try to see it from where i am->

If you had played on a game and loved it for like 2 1/2 years then one day someone you knew gona nad cheated, fucked around and got YOU banned then you would be pretty pissed of don't u think?

I mean on Kamuix server it comes up with "[NR] You where banned by <modname> for bighead hax at <time date> untill 3007"

I mean 4 gods sakes! That's just so unreasonable->They not even ask or anything...i just trye dto join to spawn some shit and blow everyone up with those cool guard towers you can make and have fun and WHACK! It says im banned

It's just well, AGRIVATING-<No one listens, no 1 cares, no 1 wants to know.-As far as they know and are concerned im a haxor and shoudn't believe a word i say---It makes me wanna cry and throw this computer across the room sumtimes when someone turns round and goes "NO!" or "Srry your banned via I.P, it's a policy"

Kamuix is just a joke don't ya think! I mean 3007! I would be in the ground rotting somewhere by then and Renegade won't even be played 1000 yrs from now
