please tell the names of all the moderators on the mizzo server i want to know which one kicked me for speaking out for my team.

map was canyon and I was GDI, we were winning by about 2000-4000 points, we had just taken out their air strip and they just nuked out bar, right when bar was taken out another nuke was layed at ref, a handfull of engies and techs rushed to ref including me, it was placed on the roof right across from silo, I tried to disarm it but it was just out of the effective range of a repair gun and barely damaged it, and of course ref died, I said "that was a cheap ass tactic", and this one player said "that's what GDI gets for point whoring the airstrip lol", i said 'there is a difference between whoring and exploiting dumbass" *kick*

I think I'll stay with the pitts.....

BTW the guy who said "that's what GDI gets for point whoring the airstrip lol" I think his name was Tycoon
