I had a nice, long post written. The forum ate it, so it's gone. This one won't be as soft and cushy.

bat, nobody believes you. The 'my brother did it' excuse is as old as online gamig, and nobody buys it anymore. Add that to the fact that you didn't even mention your so-called brother until your position was already thoroughly demolished, and we've got even less reason to believe you. Stop using that lame excuse and own up to the facts.

The facts are:

- You cheated.
- You got caught.
- You got banned.

Oh, I'm sorry, you can't play anymore? Too fucking bad. I can't play either, but I can't play because my network sucks hairy donkey cock. You can't play because you went and fucked it all up. Zero sympathy minus five here, and still dropping.

So you got banned from the server's forums, too? Boo fucking hoo. I don't even have to go and look at the posts in question to know why you were banned; I'll bet anything that you posted there with the same condescending, screaming, my-demands-be-met-NOW attitude and got exactly what you deserved for it. That hasn't happened here yet only because our moderators are very, very forgiving- too forgiving, sometimes.

Let's face it: you're pissed off because you got caught with your pants down. You broke the rules and got caught with all your vulnerable bits a-swingin' in the breeze, and now you're trying to deny that it was even you. Aside from your being a complete asshat for cheating in the first place, that's just fucking pathetic. You are the only person to blame for where you are right now. Accept it, shut the fuck up, and move on.

Nobody cares, nobody feels sorry for you, and nobody is going to help you. You had a chance- the only chance you should have needed- and you blew it. A great many of the people here, myself included, have been playing since day 1 (and some before that) and never even so much as looked at cheats. We never needed them, we never wanted them. If anyone has a 'right' to play, it is those of us who don't fuck around with that stuff. You did. You fucked up. Not your brother, and certainly not us... you. You have no case, and even if you did you have no credibility. You ruined both. If there were such a thing as negative credibility, you would have it right now- and all you are doing by staying is building the case against you.

Your very presence here is an insult to those of us who have never done anything wrong yet can't play for some legitimate reason.

Fuck off.
