Well...i have a question that's being stirring around in my head 4 the past week

Why do people almost demand that i be calm, cool and accept all they say? I mean in these circumstances i think that anyone in my position would be just as angry as i am

I mean come on...being banned from an all time favourite server by the doings of your brother and everyone you turn to, everywhere you go to explain your problem and get them to listen shouts in your face, turns away and then bans you there!

I think that even 4 me juring this topic/thread i have been reasonably compliant and if you think this is me being "All Out Shouting screaming my head off at you as mad and angry as i can" Then i am afraid you are wrong...when i first Posted this topic i seriously was so angry and furiated i had to take time-out for 30 minutes before i started posting->

But...in a summary i feel in a way i have cleared my name thanks to havoc9826's post
