Add that to the fact that you didn't even mention your so-called brother until your position was already thoroughly demolished, and we've got even less reason to believe you. Stop using that lame excuse and own up to the facts. No body believes that as an excuse, but the fact that he had said anything before it all happened is something to consider. Plus he said he has been playing on the server for some time now, AND he says that it is his favorite server.

Even if by him faking having a brother to get out of a ban was premeditated for cheating in the future, I don't believe he would cheat on his favorite server. Or make a thread like this for that matter.

But also, no offence to bat or anything, I don't think he is the kind of person who would be able to scheme a plan like that. Saying he has a brother who cheats, then using whatever leeway to go and cheat himself...
