PiMuRhoAircraftkillerHey Pi, are you in touch with Hellchick at all? I spoke with her a few times about a "3DS Max and gMax Bible" she wanted my maps to be showcased in, but I haven't heard anything back from her about it.

You know anything about it, either?

I speak to her sometimes, yeah. She's pretty busy with Activision stuff at the moment. I can drop her a line if you like.

I'm sure I've heard it mentioned before. None of my commercial work could ever be used in it though. 3000AD hold everything under very strict rights.

I can talk to her on ICQ... But I'd rather not bother her. If you could find out when that book is coming, I'd appreciate it. I'm supposed to get a free copy of it for having my work showcased in the Renegade-W3D section.
