Cool! You read my mind...I was looking at TDU as well. I watched plenty of YouTube videos and liked what I saw.

I always thought, personally, that playing shooter games in a console is weird but my laptop (only comp with internet) fell yesterday and the hard drive guts broke loose. I am at work now lol.

So, now I am left only with my long-asleep PS2 for gaming entertainment. However, I was looking at Mercenaries: Playgrounds of Destruction for a good shooting game. Also I hear it's 3rd person kinda like Renegade...so I guess I have some decisions to make.

Anyway, thanks all for advice! Keep them coming!

Here a quick video of me getting busted by the police in my F430.
