Bluethen, you are saying that if we legalized some drugs, it would destroy our society. Look at the Netherlands for example. They decriminalized Cannabis for personal use, and nothing happened. The city didn't explode in an orgy of blood, violence, and crime.
People like you only seem to think that stuff they don't like and have issues with should not be allowed period. People like you are in office, and are continuing to keep these mundane laws around that harm millions. People like you need to stop crying and listen to someone else's point of view for once.

We need to get smart about drugs. Not tough.
