I can imagine I'll get laughed at for this, but what the hell (no pun intended ).

I've always believed that the universe will die and a new universe will be born. I don't know if they will be exactly the same. I'm sure everyone can remember their very first memories, well i think dieing is like being knocked out and as soon as you wake up you're living through your (different) first memories again.

"What do YOU want to happen after you die?"

The above.
