When I was watching all the EA rants saying that EA sucks I was agreeing now everyone is hyping over EA? Was EA finally able to brainwash you

On second note: RA2 and YR are my favourite C&C games to date to say that C&C3 is better, is just dumb, just look at it when it was first released it was buggy as hell, and don't say "it's better now" because if a company releases a game it should be pretty perfect, other words not making around 10 patches for i. When I buy a game I expect it to be not buggy at all, sure a bug here or there is fine and if there is a need for a patch or 2 so be it but 10! that is just stupid.

EDIT: forgot bout TS, TS was a fun game sure it was unbalanced but that is what made it so fun
