December 2007 14:44i dont get wta he did wrong

He gave a bad review to a game that has been heavily advertised on the site. The game's  
company gets pissed, Jeff gets fired and his video review gets pulled.

I liked Gamespot until I saw this. Then again, I only ever read the reviews, didn't really pay  
attention to anything else. Since these guys are obviously biased, what would be a good site for  
reviews and the like?

Most of them are biased, Your better of downloading the demo / watching in-game footage and  
deciding for yourself, Or
