V1.1 is also ready.

we are testing it on the servers at the moment, after the test we are going to release V1.1

-added LuaPlugin V2.2

-Added Defence commands.

-added help file on all commands.

-added Mod file so the Bot works as a standalone version. no extra Regulator needed.

-fixed report messages to the moderator to see if the command was succesfull.

-added easy permission file to change/turnoff permissions of commands used by mods.
