Staude wrote on Mon, 03 December 2007 16:00lmao the blue ray is better.. It has larger space, streams faster, looks better, the laser is better for the discs and they last longer.

The only thing HD DVD has going is its name. And that wont be enough in this technological age. Atleast i doubt it will.

Well, name is one thing that won the VHS vs Beta format wars didn't it? It MIGHT repeat again, but I'm hoping Blu-Ray wins. Mainly since PS3 comes with a bundled Blu-Ray player. All the HD-DVD player costs \$1000+
