Yes, you can help support Game-Maps.NET by donating whatever you can spare to help to pay for the web hosting costs and for a safety fund incase anything unforeseen happens.

A little history of the site.

Game-Maps.NET now has been around for a few years now, it was first set up by Zunnie as an download section of MP-Gaming.com, since then, it has grown alot to support Renegade and APB by hosting players made maps, skins, tools and lots more, we have close to 1000 linked files on the site, and there is alot more to be added.

The site itself has a small staff, myself was the first person that was recruited with one or two others, only I and Zunnie put any real effort into the site, uploading and linking files, while the others didn't really have the same enthusiasm or the drive, this was at the very beginning of the site's life, but we did enough to make the site known and get it well used by the community.

We had a new burst of life when we recruited a few new staff members that have so far kept with us when MP got into APB and CNC3 was being released, they have helped us greatly with the APB and CNC3 sections.

For a few months, actively around the site has slowed down, with a few or dozen new files being added aswell as my on-going project to replace some of the older files in the Renegade section to new versions.

So we come to the present, in the last few weeks, we had to change hosts which am proud to say, am paying for, a big shout out and lots of respect has to go out to the person who is well known in the community who used to pay for the old hosting, I can't really thank him enough. As we have a new host, I decided to change a few things.

For the last few days, one of my staff members named, alexrirak has been working like crazy on a organizing job, he has moved all the folders and files to a new area in our ftp, to make it better organized then it was before and today he has completed the job.

Since the host change, myself and alexrirak have renewed our energy to work on the site again, by adding new game downloads.

Our first new sections are Call of Duty 4 and Crysis.

We also plan on a face lift for the site,

Everyone who has used Game-Maps.NET has enjoyed a dedicated website geared for Renegade with fast downloads, so if you wish to be kind and support us, then please click the donation button in the lower right of the website.

Anyone who donates, will have their name forever recorded in our donations sub forum, also if anyone donates a large amount, then they might be given an @game-maps.net email account or maybe an small FTP account for their personal usage as a thank you gesture, though that might depend on the person.

Thank you.

Game-Maps.NET - Serving you.
