EKT noobs baned me within a week of first playing the game because i asked why no one gets medals / points / recommendations unless your ekt ? all players where doin well and never get a lookin in there servers . you play for hours in there server and never gain rank stats ect whots the point

i moved on to {renegade community marathon server } within weeweeks became ranked 22 out of thousands and some of the games go on for like 4 hours not 10mins like most servers now thats what i call gamein
