tell them rudely or the names might be as follows:

adbeveations of the keys used like `ctl_01`, `alt_05` `ctlyalt_02`

adbeveations of the words seid `GDI_pp_underattack` `GDI_ppundattack`

or something just go though the lists in XCC mixer and playem all till you find it youd have to ask some one who has made mods for the radio commands and stuff
