Commando Burton wrote on Wed, 05 December 2007 17:59Hey I need to know where sever.dat is for no game play pending patcher or mabey im doing something wrong? You must be hosting a dedicated server, a normal server running from your game wont work with this, also it should be in

Renegadefds/server

if not, maybe it's in the data folder, I dont remember.

This officially marks the person we will now all ignore.
