sadukar09 wrote on Tue, 11 December 2007 08:45Stupid SiS mainboard...and stupid Sprint Comouters. Well, 7800GS would run Crysis (lol, Crysis runs on my X1550 at low so...yea) my card is crappier than 7800, I can still run it :/

lol, Sprint.

Man, they overcharge for a ton of stuff.

My mom bought my old X800XT from them and it cost her 800 bucks.
