The fact that people can do that is good on my opinion. It makes you have to think of some new tactics, and cooperate some more.

Quote:Why do you complain if you almost never play there? There are alot of other servers that wouldn't mind having a player of your status. And yes we don't have alot of players becuae:

a)noobs hate the small defenses

b)we aren't that big (wich issn't needed)

c)depends on the time

Also it's because no one know's we're the original, so they play at other copy-cat servers like wittebolx's.
