sadukar09 wrote on Mon, 17 December 2007 08:50HQRQWER wrote on Sun, 16 December 2007 07:38i pay i mean my dad pays \$40
my internet is bad ecause i have no good speed of my computer
2.01 ghz that is slow and 1.50 gb of ram is normal but not good

If it's dual core...then it's not slow...and the normal RAM is 1GB.
RAM and processor have nothing to do with internet speed...

And this is why we ignore stupid people.
