Is it like he made those models for advantage? Obviously not if they have ANY style to them... His HUD has shown no cheats so far, unlike Kanex, which is pretty suspicious of him using cheats even if it IS on LAN? People have been banned for smaller things... Like fuck you guys are retarded... I hope Scrin never releases his, and simply hoards it to himself and trusting people... Btw, he's shared some stuff with lots of people.. I wouldn't be surprised if Canada simply re-skinned it.. I'm not making any accusations though.. But like.. Fuck, you guys are so stupid sometimes...

Honestly, I don't think he really deserves much, since all he's done is tried to get us to kiss his ass for something as stupid as a simple hud.
