If you think kamuix servers suck, don't play it. If you have good reasons why, post in more detail with proof.

Saying "LOLZ HE CHEETS IN HIS OWN SERVER!11" is a retarded reason to hate a server. More than likely he was testing stuff. Again, if you really don't like it, just don't play it. If your intentions were to make other people aware that it is a "bad server", you have two options:

Post a long detailed explination with undenyable proof that the server is bad and should be avoided. And no, 1 sentence is NOT long. And maybe, just maybe, a few people will listen.

Or, just let them play it for themselves to see that it's actually stupid. If they like it, then they like it, and your arguement of it being bad is simply a personal opinion. One that should be kept to yourself.
That first sentence just proves that you are an ignorant asshole. Maybe you should stfu and stop being so lazy and read my reasons you retard. Keep your holier than thou comments to your faggot self.
