One Winged Angel wrote on Wed, 19 December 2007 06:57 That news of no C&C mode has killed the dream of this FPS being anything other than generic. I can bet that Renegade will still last longer than this game. Back to modding then :\

Also Titan1x77 and [NE]Fobby[GEN] are the ones to be looking at now for a true C&C FPS multiplayer experience. Their mod is going to bring much joy to anyone who has ever wielded a repair gun.

Thus, why we play APB, AR (OWA you leak now or I choke you )
