hi i dont know if this is in correct section but i feel i need to make a post about someone...

i made a old friend a mod on my forums and on my server.

and anyway cut a long story short i demoted him due to his manner towards other ppl and other mods.

so when i deleted him from irc op he went straight to my forums n deleted EVERY post that was in there!

i dont know if u want to know all this but i thought it might be a heads up if ppl want to make this guy a mod i wudnt if i was u.

but his ip n nicks r banned from the hole irc server and 2 sets of forums.

bl4ckL33t and coolboys5 is his nicks so far
